

PRINTeL'S 1ST ANNUAL TEACHING & LEARNING FORUM

“ISSUES AND PERSPECTIVES OF DIGITALLY-ENHANCED INNOVATIVE TEACHING & LEARNING IN HIGHER EDUCATION”

INVITATION

The ERASMUS+ funded PRINTeL Project is pleased to invite you to a webinar on its 1st annual Teaching & Learning Forum entitled “ISSUES AND PERSPECTIVES OF DIGITALLY-ENHANCED TEACHING & LEARNING IN HIGHER EDUCATION”. The Forum will take place on the 20th of May from 10:00 to 15:35 Central European Summer Time (CEST).

The Forum takes the form of an online webinar, which will focus on how European and Eastern Partnership Country (EPC) universities have responded to the changes in teaching and learning (T&L) that have come about because of the Covid-19 crisis. It will also give an opportunity to analyse what was done over the past year to support university communities in addressing key challenges of T&L, as well as a chance to reflect on what lies ahead for university T&L in the future. It will highlight the key findings of the recent experience of PRINTeL Project partners on innovative and technology-enhanced T&L in times of Covid-19.

The Forum will allow the participants to meet and discuss developments in the digitalised T&L at European and EPC universities. Through a mix of presentations and interactive audience engagement in different plenary sessions it will provide a platform for the discussion on how universities enhance T&L in virtual space as well as present the ways to accomplish the digital transformation in T&L that our HEIs require during the Covid-19.

The webinar will be of interest to university and school teachers, quality assurance officers and management personnel involved in T&L of HEIs. It also welcomes students, policy-makers and other stakeholders in higher education.

GET PROGRAMME:

[http://printel.am/uploads/news/pdf_en/PRINTeL%201st%20T&L%20Forum Programme.pdf](http://printel.am/uploads/news/pdf_en/PRINTeL%201st%20T&L%20Forum_Programme.pdf)

Registration is free of charge and open to all HE stakeholders who are interested in innovative and technology-enhanced T&L.

Participants can register until the start of the webinar. The working language is English.
